WHY IS IT IMPORTANT TO WEAR A RACE BIB?

Your race bib is the only way we can properly identify you on-course. This becomes critically important in the event of a medical emergency. Our event is also covered extensively by the media we strive to report 100-percent accurate information. Your race bib contains your timing chip and because of this, race numbers are absolutely non-transferable.

WHERE SHOULD I PLACE MY RACE BIB?

Please pin your race bib to the front of your company's race t-shirt uncovered. If you do not wear a race bib, you and your company risk disqualification from the J.P. Morgan Corporate Challenge.

Yes, walkers are welcome to participate, however, all participants must enter the back start wave.

ARE THERE DIFFERENT START WAVES?

Yes, there will be four start waves. The wave colours will be in the following order: red, green, blue, white.

WHAT DOES MY BIB COLOUR MEAN?

During the registration process you will be asked for your estimated finish time and you will be assigned to a starting wave accordingly. The colour of your bib will match a starting funnel colour, and there will be clear directions to your respective start area from the hospitality villages in Battersea Park. These colours are carefully calculated depending on your estimated finish time. You may move backwards to a slower wave on the day but will be unable to move forward. Once bibs have been allocated we are unable to change them.

WHAT IF MY PROJECTED PACE HAS CHANGED FROM WHEN I REGISTERED?

You are able to self-seed yourself to a later start wave corral by simply moving back to a later start wave. You may not move to a faster start wave and doing so risks disqualification for timing and scoring reasons.

WHERE ARE THE TOILETS?

Toilets are located in each hospitality village, in the start funnel, throughout the route and at the start and finish.

WHERE IS THE MEDICAL TENT?

The medical tent is located at the finish line. Medical staff will also be present at the Start and Finish, along the route and throughout the event site.

WHERE ARE THE WATER STOPS ON THE COURSE?

The water station is located on the route after the 3km marker. Water will be distributed to runners in paper cups. Limited water is available in the hospitality villages and at the finish line, but we encourage runners to bring their own to reduce the environmental impact.

WHERE ARE THE BEST SPOTS TO WATCH THE RACE?

The course is open to all spectators. We recommend you watch the race along the finish straight.

HOW LONG IS THE COURSE OPEN?

There is no specific cut off point for the race as the roads do not need to reopen. The event hospitality villages will close at 10.00 p.m.

WHEN WILL THE RESULTS BE POSTED?

Unofficial results will be available on the website within 48 hours of race night. Typically, complete team results can be found on the website approximately 2-4 weeks after the event completion. Each participants eligibility requirements must be screened.

WHAT IS THE DIFFERENCE BETWEEN CHIP TIME (NET TIME) AND GUN TIME?

Chip time, also referred to as net time, starts when you run over the start mats and ends when you run over the finish mats, and is recorded with the chip located on all race bibs. Gun time starts when the air horn goes off to begin the race and ends when you run over the finish mats.

I HAVE A QUESTION ABOUT MY INDIVIDUAL RESULTS. WHO CAN I CONTACT?

If you feel there is a discrepancy in the results, please contact us at results@corpchallenge.jpmorgan.com with your full name, company name, and bib number. We will investigate immediately and get back to you. The individual winners will be decided using gun time, whereas team results will be based on ship time.

Scoring

HOW DO I QUALIFY TO COUNT FOR MY COMPANY TEAM?

Participants will be automatically organized into 4-person male, female, and mixed teams based on the chip times. Each name will be assigned to only ONE team.

The Company Captain will determine the composition of the male, female and mixed teams representing his/her company AFTER the race. The score for each team is obtained by adding together the finish times for all four members.

Teams must be organized online using [Captain's Tools](#) and in accordance with the scoring rules located [HERE](#).

HOW ARE THE RESULTS COMPILED?

We score three categories – Men’s Team (four men), Women’s Team (four women), Mixed Team (two men, two women). It is the responsibility of the Team Captain to determine which participants go on which teams after the race using the online Captain’s Tools. Team Captains cannot place an employee on two separate scoring teams. Team Captains are not required to place all of your runners on teams.

WHAT IS A SCORING TEAM?

A scoring team is made up of either four (4) males, four (4) females, or two (2) males and two (2) females. These teams will be made up of the four (4) fastest runners in each scoring category. The Team Captain will be able to create and submit the scoring team using the Captain’s Tools.
